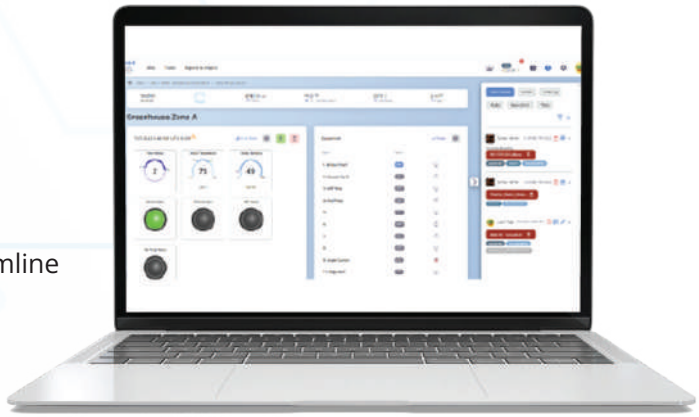
Link4 CORPORATION

“Cultivate Success in the Cloud: Where Innovation Meets Growth!”

Welcome to the Link4 Corporation, where the power of cloud technology meets the art of cultivation. Our cutting-edge Link4 Cloud is designed to revolutionize the way you grow, optimize, and harvest your crops. Our suite of integrated tools will streamline and elevate your crop management.



Key Benefits

Advanced Graphing & Analysis

Detailed graphing with integrated event timeline. Pictures, videos, user actions, alarms, and more all located in a customizable dashboard.

In-System Grow Journaling

A context-sensitive system where notes containing reminders, photos, videos, and documents can be recorded and tagged for easy reference.

Audit Log Change Tracking

All changes are recorded to capture who made what changes and when.

Task Management System

Streamline tasks with context sensitivity, repeating schedules, reusable templates, and assignees. Users can attach SOP documents for clear execution guidelines.

Customize Alarm Notifications with 7 levels of precision for targeted delivery

Our advanced alarm controls and 7-level notification system will keep you informed of critical changes in your growing environment, our permission system will ensure the right people are notified at the right time to minimize risk and prevent potential crop losses. Receive timely alerts via email, text, or push notifications (*only available with the app) so you can take prompt corrective actions.
