CORPORATION

About Us

Link4 Corporation provides software and environmental controls that help growers optimize greenhouse production and reduce costs.

Our advanced controls allow users to monitor and manage greenhouse conditions remotely via any internet connected device.

Our cloud-connected systems allow complete management from any device, catering to everyone from hobbyists to large-scale producers.

Link4 provides dedicated, expert support from initial consultation through installation and continues to support you into your growing seasons.

Indoor and Outdoor
No matter where
you grow,
WE'VE GOT AN ENVIRONMENTAL CONTROL FOR YOU!

Our Solutions

1 Environmental Control Systems

Automate temperature, humidity, lighting, and CO2 to boost crop yield and quality, with remote access via our intuitive cloud platform for efficiency anywhere.

2 Extendable and Customizable Controls

Our scalable systems adapt to any operation size and integrate seamlessly with existing equipment for comprehensive monitoring and control.

3 Support And Maintenance

Comprehensive Customer Support: We are with you every step of the way to ensure optimal system performance.

4 User-friendly Interface

Intuitive dashboards for effortless control and configuration

5 Energy-efficient Solutions

Designed to reduce energy consumption and minimize operational costs.

Why Choose Link4?

As a trusted leader in Environmental control, Link4 offers advanced, energy-efficient solutions to optimize growth and streamline operations, so you can focus on growing high-quality, profitable crops.

01 Industry-Leading Expertise

02 Precision Control for Maximum Yield

03 Intuitive and User-Friendly Interfaces

04 Scalable Solutions for Operations of Any Size

05 Trusted by Industry Professionals Worldwide

06 Comprehensive Support & Service

PEARL

Unleash The Power Of Modularity

The Pearl by Link4 offers scalable, modular greenhouse control with a building-block design for easy installation, expansion, and maintenance. Customizable modules allow growers to set precise environmental parameters.

Integrated with Link4 Cloud, it supports remote monitoring, real-time adjustments, and simplified setups through powerful features like group programming. Available in single or multiple panels to reduce installation costs, the Pearl is backed by industry-leading support for reliable, flexible operation.

PEARL

GET WHAT YOU NEED TODAY
GROW BEYOND TOMORROW

Cloud Connectivity

Access and receive alarms from anywhere.

Powerful Controls

Increase yield while lowering operational costs.

Modular Design

A hardware that can scale up with you.

Unique Rail Connectivity

Easy to replace and maintain the hardware.

Pre Programmed

Fast and correct startup for your system.

Configurations available with WiFi & cellular

Connect to your remote systems easily.
