PEARL PRECISION IRRIGATION

WE MAKE GROWING EASIER

Putting greenhouse-level irrigation accuracy in your nursery fields, boosting root health and slashing overhead.

Smart Irrigation with Link4 Cloud

- Sensor-guided —irrigates on crop demand
- Cut water while keeping plants healthier
- Mix-and-match irrigation logic per valve for ultimate zone flexibility
- Cloud dashboards, logs, and alarms—monitor any block from anywhere
- Full-field insight— up to 128 sensors for flow, moisture, light, water level, DO, and more

Automate Now with Link4 Cloud

4 Powerful Irrigation Modes

Accumulated Light

Waters when daily light exposure hits your target—not when the clock turns.

Schedule and Cycle

Start-and-stop timers plus rapid on/off cycles for misting or booms, curb runoff & puddling.

VPD Accumulation

Waters precisely when plant stress hits your set limit—based on vapor-pressure deficit.

Soil Moisture Controls

Continuously measures the dryness of the root-zone and maintains a desired moisture level.

Why Pearl by Link4?

- Modular Design
- Cloud Connected
- Suitable for large nurseries & open fields

Link4 CORPORATION

PEARL PRECISION IRRIGATION

Smart, Proactive Field Management

- Distributed snap-in design—start small, add modules as you grow, and mount units at each manifold to slash wiring and install time.
- Smart master-pump sequencing with real-time flow sensing and automatic leak-detection shutdown.

Trusted by commercial growers across the US

Data-Driven Insights, Greener Results

Captures data from up to 128 sensors and logs it into the cloud, delivering field-wide insight before issues arise.

Expert installation, ongoing support—Link4 stays with you from rollout through maintenance.

Flexible Aux Control converts real-time sensor data into instant pump stops, leak locks, and auto flushes—protecting gear, plants, and saving water.

Example Use Case

If soil moisture drops below 20% and temperature exceeds 85°F, then irrigate Zone 3 for 15 minutes and send an alert.
