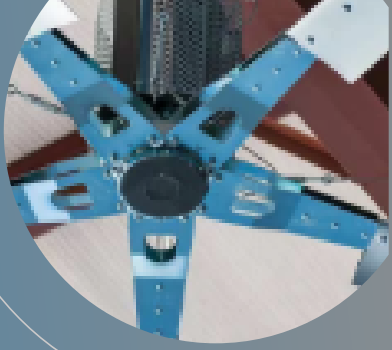
Link4

Demand Control Ventilation

MASTER AIRFLOW MANAGEMENT

Effortlessly manage airflow in greenhouses, warehouses, and industrial spaces with the Link4 Fan Controller, allowing precise fan speed adjustments using the intuitive Cloud slider.



Smarter Fan Control with Link4 + Cloud

Image only for illustrative purposes

- Manual Cloud Control – Adjust multiple fans remotely across different zones
- Remote monitoring – View dashboards, alerts, and historical data anywhere
- Energy-efficient operation – Run fans only when needed to save power and reduce costs
- Data logging - Track fan performance and runtime for maintenance and optimization
- Separate fan outputs - Independently control different fan types or zones

Automate Your Fans with Link4 Cloud

What Smart Fan Control Delivers

Unmatched Airflow Precision

Dual fan speeds offer consistent and stable environments.

Reduce Costs and Boost Efficiency

Operate only as needed to cut energy costs and save on time and money with minimal labor.

Superior Health and Cleanliness

Minimize dust and contamination for a cleaner, healthier space.

Adaptable and Built for Growth

Easily manage fans and expand smoothly with sensors as your operations evolve.

Why Link4's Smart Fan Control?

- Easy integration, no redesign required
- Adds cloud value for growers and facilities
- Differentiates standard fans with premium automation
