ANALOG LIGHT CONTROLLER

Horticultural Environmental Control System

link4controls.com

GROW LIGHT CONTROLS MADE SIMPLE

- Dim two light banks independently
- Two analog 0-10V outputs
- Two analog 0-10V inputs
- Smart integration with Link4 cloud
- Designed for harsh cultivation environments

Control Dimmable Light Banks with:

- PPFD -- Dims lights automatically to maintain a constant light level for your plants
- DLI -- Controls supplemental lighting to reach the desired daily cumulative light target
- Variable Light -- Adjusts light level with various parameters, e.g. temperature
- 1 ModBus expansion port for additional I/Os.
- One temperature and humidity sensor included

ANALOG LIGHT CONTROLLER

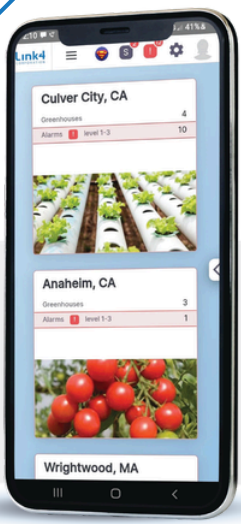
Horticultural Environmental Control System

MAKE GROWING EASIER

The Pearl is easy to set up. All systems purchased from Link4 can be equipped with custom drawings, videos, and documents to guide installers and end users.

The integrated cloud makes system setup easy, with advanced features such as group programming, and settings save and restore.

Deployable as a single, large UL electrical panel or multiple panels to minimize wire runs and installation costs.



Cloud Connectivity

More than just a hardware interface, our cloud is secure, industry leading design offers real-time alarm management, full audit log, context-based multimedia grow journal, advanced graphing, task management, documentation tracking, user-controlled dashboard, advanced third-party access, context-sensitive help, and much more!

Other Options

- Many configurations available with WiFi and cellular.
- Private label and OEM versions are available to various distributors and manufacturers.
